THE MASIA

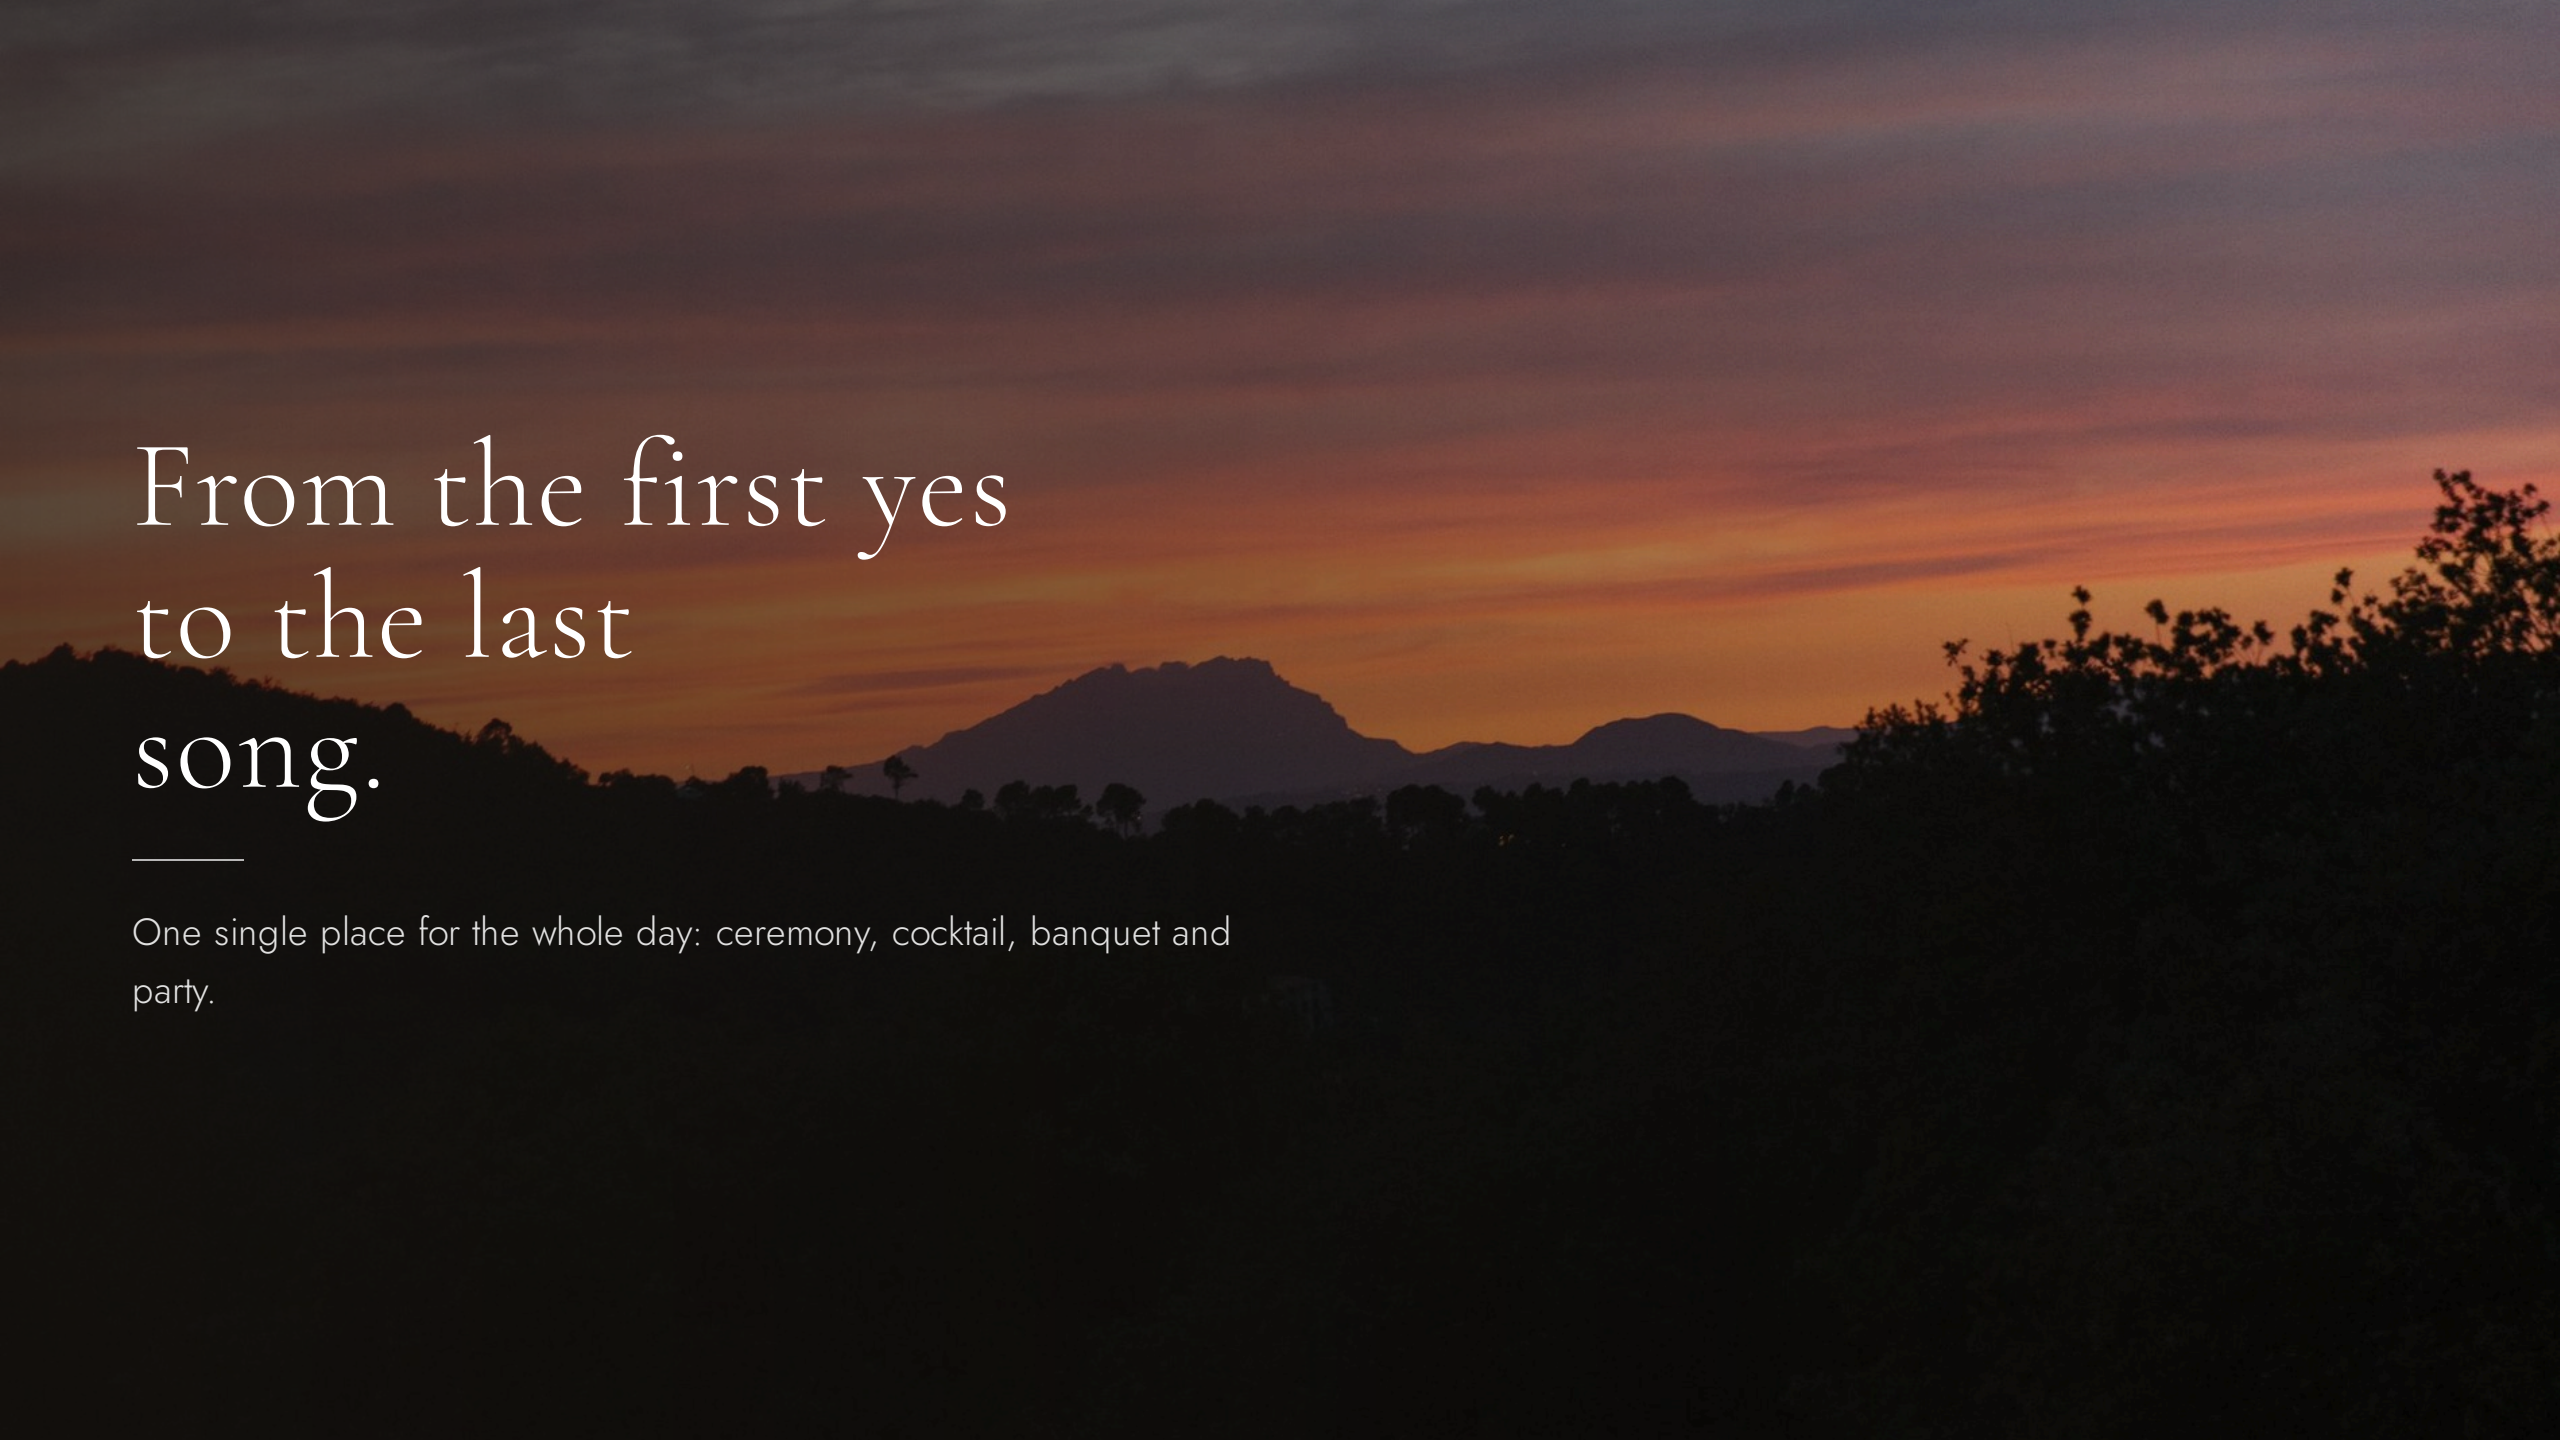

A 16th-century masia fifteen minutes from Barcelona, inside the Collserola Natural Park.

Up here time moves differently. The masia looks out over the Vallès valley from above, surrounded by holm oaks, with Montserrat outlined in the distance and the silence of the natural park all around. Far enough from the city not to hear it; close enough to get here in a quarter of an hour.

The best hours happen outdoors: the sun crosses the valley at midday and, at dusk, sets right in front of the terrace. When it gets dark, the party moves inside.

We cook, we welcome you and we are beside you from the very first day until the lights go out.

From the first yes to the last song.

One single place for the whole day: ceremony, cocktail, banquet and party.

02

THE SPACES

Two outdoor terraces with open views over the Vallès and an indoor room where the party carries on after dark. We combine them to suit the day you have in mind.

- **Sunset Terrace** — the larger of the two, with the porch as an extra. Sunsets and views.
- **Mirador Terrace** — surrounded by trees, with lovely views and a window opening onto the Vallès.
- **Sala Montserrat** — the indoor space for dancing and the party.

> We recommend weddings of up to 120 guests. If there are more of you, let us know: we will find the combination of spaces that works for you.

OUTDOOR SPACE

SUNSET TERRACE

The sweeping sunsets make this terrace a place people remember. With views over the whole Vallès and Montserrat in the distance, it is without doubt one of our most special spaces.

It is the larger of the two terraces and fits the entire banquet. It also has the porch right beside it, a covered space included in the same rental.

OUTDOOR SPACE

MIRADOR TERRACE

Surrounded by trees, with lovely views and a window opening onto the Vallès. The pines and holm oaks reach the very edge of the terrace and give it a sheltered feel, as if the woods were part of the setting.

The valley opens up through the green: a quiet, bright space where the day goes by more slowly and every table has its own piece of the landscape.
